

28 Analgesic Diuretic Pills

Active ingredients (in each pill)	Purpose
Acetaminophen 500 mg	Analgesic (pain reliever)
Pamabrom 25 mg	Diuretic

Uses For the temporary relief of minor aches and pains including those affecting the back, legs, joints and related discomforts due to muscle strain, spasms or overexertion, as well as to help reduce periodic excess water retention for relief of pressure-caused discomforts.

Warnings

Liver warning: This product contains acetaminophen. Severe liver damage may occur if you take ■ more than 8 pills in 24 hours ■ with other drugs containing acetaminophen ■ 3 or more alcoholic drinks every day while using this product.

Do not use with any other drug containing acetaminophen (prescription or non-prescription). Ask a doctor or pharmacist before use if you are not sure.

Ask a doctor before use if you have liver disease.

Ask a doctor or pharmacist before use if you are taking any other medications.

Stop use and ask a doctor if ■ pain gets worse or lasts more than ten days ■ fever gets worse or lasts more than three days ■ redness or swelling is present ■ any new symptoms occur.

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children. In case of overdose, get medical help or contact a poison control center right away. Prompt medical attention is critical for adults as well as for children even if you do not notice any signs or symptoms.

Directions

■ Read all package directions and warnings before use and use only as directed.
